Energy Impact Grant Applications – Deadline Extended

The Energy Infrastructure and Impact Office is extending the deadline for community applications for infrastructure improvement grants to address impacts from oil and gas development. The application deadline has been extended from end of April to May 8, 2013.

The deadline is extended to accommodate final Legislative decisions of the policies and the amount of money appropriated for the oil and gas impact grants.

The grant funds are used to provide grants to cities, townships, emergency services and other political subdivisions realizing direct impacts as a result of oil and gas development.

Additional information can be obtained on the energy infrastructure and impact office website at www.nd.gov/energyimpact or by calling (701)328-2800.
